T-Slot Aluminum Framing

Parker Industrial Profile Systems

ENGINEERING YOUR SUCCESS.

T-Slot Aluminum Framing Solutions

Everything You Need to Build *Anything*

Parker's extensive line of structural T-slot aluminum extrusions, fasteners, panels, doors, hardware and accessories can be configured to meet any design challenge with a durable, high performance solution.

Cabinets and Storage

Material Handling Systems

Test Station with Granite Top

NEW!

Factory Lean Solutions

Parker has introduced a series of standard lean factory solutions such as team tracking and communication boards and day by the hour boards using our modular T-slot aluminum framing system. These systems can be ordered as a kit or an assembly.

Service and Support: When, Where & How You Need It

Customer satisfaction is key to your success, and ours. Our nationwide network of IPS service centers and distributors provide the right level of product and engineering expertise and response to support your needs.

Wadsworth, OH

Rohnert Park, CA

IPS Service Centers

- **Plant locations in Wadsworth, OH and Rohnert Park, CA**
- **Parts, accessories and extrusions in stock**
- **Engineering capabilities for kits and assemblies**
- **Machining services: cutting, tapping, drilling and counter boring**
- **Assembly services**
- **Factory direct customer service support**

Authorized Design Centers

- **Locations across the country**
- **Local inventory of most parts, accessories and extrusions**
- **Engineering capabilities for kits and assemblies**
- **Machining Services: cutting, tapping, drilling and counter boring**
- **Assembly services**
- **Factory trained staff**

Authorized Distributors

- **Locations across the country**
- **Local support**
- **Other value added services**
- **Factory trained staff**

Online Tools

www.parker.com/ips

Parker IPS offers the tools needed to design and develop your assembly solution. Use our website for access to the industry's most comprehensive resource for:

- **Complete selection and specification information on all IPS products available on-line in pdf format**
- **Native SolidWorks® and Inventor® 3D CAD files libraries available for download or on USB for all IPS products**
- **Training materials**
- **Support and downloads**
- **Rapid quote requests**
- **Distributor/Design Center Locator**

Avoid paying too much for an over-engineered solution, contact our applications team today at 800.333.4932 for quick response and help with designing the best solution.

SolidWorks® is a registered trademark of Dassault Systemes Solidworks Corp.
Inventor® is a registered trademark of Autodesk Inc.

Think it. Design it. Build it.

From Concept to Completion.

Turn your brainstorm into an application quote in as little as 24 hours – Parker's IPS network can help!

Are other structural aluminum providers unable to provide the right solution? Are you considering using aluminum over traditional welded steel? We can convert pen or pencil sketches into final drawings and quotes, often saving you time and money.

Parker can also supply engineered kits or sub-assemblies to make your next project flow smoothly. Most quotes can be turned around quickly.

Call **800-333-4932** to discuss your requirements with an applications engineer.

Typical Applications

- Motion systems integration
- Enclosures and guarding
- Machine bases and frames
- Workstations and tables
- Material handling systems
- Lean manufacturing tools
- Clean room applications
- Conveyor frames
- Test equipment
- Tool racks
- Test tables
- Trade show booths
- Store fixtures
- Sound enclosures

Markets Served

- Aerospace
- Automotive
- Educational
- Industrial manufacturing
- Medical
- Packaging
- Pharmaceutical
- Plastics
- Semiconductor
- Textiles
- Tires

Need a Quote in a Hurry?

Parker IPS has the engineering experience to make ground-up system development quick and easy. Let us assist you in designing your next system from concept to completion.

The IPS team of engineers is available to help design systems to ensure perfect field integration. IPS solutions are custom fabricated and shipped installation ready as a kit or complete assembly.

Machine Services

- Cutting
- Tapping
- Drilling
- Counter boring

Custom services also available by our expert machinists to meet your exact requirements.

Value Added Services

- Metric and Imperial design catalog
- Parker Structural System Designer (PSD) software
- Motion system integration
- Deflection program
- Engineering quotes and drawings
- Quick quote software
- Assembly manuals
- Assemblies, kits and bundles

Build Smart with T-Slot Aluminum Framing

Parker IPS materials can create an unlimited variety of machine bases and frames, linear-slide systems, safety guarding, enclosures, worktables, material handling systems, and other industrial structures. Innovative customers use our IPS technology as the foundation for systems that feature industry-leading Parker motion control solutions.

Think Aluminum

Aluminum framing offers numerous benefits over typical welded steel fabrication.

- **Extremely short turnaround time from design to completion**
- **No welding, grinding, cleaning, painting, or distortions**
- **Eliminates costly traditional manufacturing processes**
- **Flexibility to re-configure as requirements change**
- **Lighter**

Profiles

Parker offers a comprehensive offering of metric and inch based profiles:

- **100+ individual high-strength aluminum profiles**
- **All structural profiles are aircraft grade, high strength, mill-certified with metallurgical properties of 6105-T5**
- **Aesthetically appealing extrusions offer best-in-class rigidity, durability, and hardness**
- **Unique T-slot design for reliable connection and easy modification**
- **Metric sizes range from 20 mm to 160 mm; inch sizes range from 1" to 6"**
- **Extensive range of smooth, grooveless profiles**

Lean Solutions

- **Improve your Quality and Lean journey**
- **Tracking and Communication, Day by the Hour boards and more!**
- **Pre-configured, standard part numbers**

Fasteners & Accessories

- **T-slots, end caps, fasteners, and covers**
- **Gussets, plates and brackets**
- **Handles and hinges**
- **Panels, sliding doors and gate hardware**
- **Feet and casters**
- **Work station accessories**
- **Slide blocks and bushings**
- **Rollers and slide bearings**
- **Belt and pulley assemblies**

Panels and Wire Mesh

Panels and wire mesh are available in full sheets or to specified cut-to-size dimensions. Standard panel choices include:

- **Lexan®**
- **Trespa®**
- **Expanded PVC**
- **PVC coated wire mesh**
- **Aluminum composite**

Specialty panels of any material can be ordered for any project.

Machining Services

Standard machining options include cutting, tapping, drilling, and counter boring. Additional custom machining by our expert machinists ensure that your design is complete and to your exact requirements.

Choose What Suits Your Needs

Choose a level of service to suit your needs from a completely assembled structure to a bundle of uncut profiles:

Assemblies

Parker IPS offers complete assembled solutions that are designed, custom fabricated, and shipped in as little as seven business days. (Lead times may vary and are application dependent.)

Kits

Profiles are cut and machined to order, fasteners and accessories are included based on a parts list, and the entire order is packaged and shipped for final assembly at your location.

Bundles

Our entire product line can be ordered as bundles of uncut or cut-to-length profiles, with packages of fasteners and accessories.

Complete Design Solutions

For the factory floor...

...& the front office!

***Put our Product, Market
& Application Experience
To Work for You***

IPS Solutions at Work:

Cardboard Storage

Before...

A valve manufacturing plant was looking to update their cardboard storage area. Throughout the day the shippers had to do a lot of bending and other tasks that were not ergonomically friendly.

After...

The valve manufacturer was able to use IPS to make the cardboard storage area more visually aesthetic, modular and ergonomically friendly. *This contributed to approximately 125,000 sq. ft. of reclaimed manufacturing floor space!*

Maintenance Workstations

Before...

This Maintenance Department was in need of a way to organize tools and make them accessible. They also needed a dedicated work area that was clear of clutter, in which to work.

After...

By using Parker's T-Slot Aluminum Framing to revamp the maintenance area, the Maintenance Department was able to have a modular and more organized work space. *This improvement added to the overall plant productivity by roughly 14%.*

Steel Enclosure Replacement

Before...

A customer in the paper industry was looking to retrofit the steel enclosures around their machines. Steel has its benefits, but from a weight, modularity and flexibility standpoint, the customer felt it was time to upgrade and came to Parker IPS for assistance.

After...

With the Parker IPS redesign, the customer was able to completely retrofit the heavy steel framing with light weight, but equally strong and durable aluminum. Pneumatic cylinders replaced the hydraulic cylinders to lift the enclosures, resulting in an added cost reduction. The line of sight for the machines was also greatly improved adding to the success of the plant upgrade.

Other Products from Parker...

Electromechanical Solutions

HMI and Controllers

Superior integration and support for machine control as well as HMI hardware and software.
