MFP VISION

MFP aspires to be a strategic partner with our customers and community to provide full system solutions and total flexibility.

MFP MISSION

MFP is a family owned and faith-based organization that strives to become one of the leading world-wide motion control solutions and component supplier.

MFP VALUES

TO SERVE *God*

Serving in faith to provide excellence in product, engineering, technical solution. We are serving our community by creating a firm foundation of our company's ethics, beliefs and core values of Integrity, Customer Focus and Innovation.

TO SERVE *Families*

Serving in the company and the community. Setting leadership examples for customers, vendors and employees. We will provide stability and security through profitable growth for all shareholders and employees, that share the same priorities and commitment. Always adapting to positive change while providing an environment that encourages employees to thrive.

TO SERVE *Customers*

Our culture and attitude is to provide a premier customer experience by exceeding expectations. To be a world class supplier of components and sophisticated systems with our breadth of product in the automation Industry. To bring added value and technological expertise giving manufacturing and controls engineers full-system solutions and total flexibility.

TO SERVE *Each Other*

Continuous improvement by investing in employees, training, and technology. Empowering our team members and partners to push the boundaries of our capabilities while maintaining a positive and enjoyable environment, where we love to work, and customers love to visit.

SERVICES

Full systems solutions and support to the fluid power and automation industry.

- ✓ Hydraulic and Lubrication Systems
- ✓ Engineered Systems and Solutions
- ✓ Automation Engineering
- ✓ Design
- ✓ Service and Repair
- ✓ On-site Services
- ✓ Events and Training
- ✓ Rental equipment: filter carts, tube fabricating, hydraulic units

PRODUCTS

80,000+ SKUs in stock from all the leading brands

- ✓ Electromechanical Automation
- ✓ Connectors
- ✓ Hydraulics
- ✓ Lubrication
- ✓ Pneumatic
- ✓ Light Assembly

Full-system solutions. Total Flexibility.
